

## About Time Chart

TimeChart App is an all in one solution to the simple & complex operational needs of any business. It can cater the needs of any business irrespective of the vertical, could it be Sales or Services. It manages all the operational affairs right from the time the workforce is at work could it be at the office or off site.

It's a multi-layer solution which can be used by the customer, workforce or at the managerial level. TimeChart is a robust solution that will help an organization to streamline payroll processes and will help transforming the way time data collected, its uses, and reports.

TimeChart Implementation is nothing with minimal cost that makes this type of SaaS-based HR product a must-have in any business's arsenal.

TimeChart will help creating a fair and open environment for your entire staff which is crucial to the success of any business today. Employees deserve and expect to be treated fairly and work in a positive work environment that allows them to achieve their goals. It's no secret that companies that are investing in their teams this way are seeing incredible results now more than ever.

TimeChart solutions customer-centric approach is built on the foundation of happy employees.

## Chase Impossible Goals with Our Analytical Software

Setting goals is not a new thing for any business, but how you achieve these goals is significant. Any organization can meet its short term as well as long term sales and marketing milestones when the strategy and its execution walk hand in hand. The age old practice of measuring the productivity on a manual basis, (which is often more biased and less result oriented) is more or less phased out. Taking its place is the technological brilliance of TimeChart that provides incredible value add to your bottom lines by inducing productivity, punctuality, and promptness.

Our tech solution provides a full stack of analytical tools to assist in your sales and marketing function. As you walk through every task and its implementation, you can see the number of hours each team member is putting in to achieve these common goals to propel your business.

### *Hybrid Attendance Solution*

Multiple options for Time Attendance – biometric fingerprint scanners, desktop, tablets, iPhone, Android

TimeChart can combine the attendance data from any fix terminal and the mobile app collected data into a single module giving the benefit of both the world.

Office based or those employees who do not have access to the data plan or Wifi at work place can use the fix terminals & others through the mobile app.

TimeChart can be integrated with most of the known brand of fixed terminal currently available.
