We possess a big team to bring your imaginations to reality and our hardcore professionals toil day and night to ponder over about your key requirements. Have a quick glance at our portfolio:

CLASSIC

Are you dreaming to get an elegant contemporary minimalist look at your project?

Classic Eco Porcelanic Microcement is one of our most versatile refurbishing systems which can be used vertically and horizontally in continuity. It brings a stunning, seamless and continuous look to your surface. It's mostly recommended for interior and residential floors. It can also be used on stairs, countertops, furniture and others.

Urban

Urban is the thickest and most textured Porcelanic Microcement from our range. It's recommended for high traffic floors such as a shops or an industrial floors, patios, swimming pools and non-slip areas.

Although its application being completely manual and bespoke, it is very easy to apply, with great workability. You can choose the finishing of your preference between Mat, Satin or Glossy. Our products are 100% waterproof and its thickness can achieve up to 4mm.

Textiles

We provide a range of fabric designs to be applied underneath the Porcelanic Microcement Application allowing you to achieve a trendy stylish finish according to your preference. Using the textiles you can achieve the pattern and colour wanted. This style is suitable for walls. It can be used in walls with water contact due to its water repellent characteristics.

Stucco Venetian

The Polished Plaster Stucco Venetian is a glossy interior decorative coating, used to obtain a highly unique finish that resembles the typical stuccoes of ancient Venetian buildings. Besides application onto flat surfaces, the acrylic polished plaster Stucco Venetian can also be applied to special architectural elements, such as mouldings and columns.
