

Gypsee Jenny Psychic World

Welcome to Gypsee Jenny Psychic World

Jenny was born with the ability to sense things and events beyond the physical and the present. She was approached and interviewed by Singapore Paranormal Investigators and have assisted them with some of their queries on spirituality and paranormal activities.

I've always known that I could see or sense things and events that don't necessarily belong to the physical world. I initially thought that it was something everybody was born with until I realise one day when I was much older, that very few around me possessed the ability that I have.

Science may call it clairvoyance or [extrasensory perception](#), but I call it a special gift from the Divine — one that comes with a responsibility that

requires me to use it to help fellow human beings as they navigate their lives on earth.

Many have come to trust me with this ability, including members of the well-known Singapore Paranormal Investigators, who would consult me on spirituality and paranormal activities before they go about with their investigations.

Others in the media, including Singapore Chinese daily Lianhe Zaobao, have reached out to interview me about my ability as well. I even appeared on the popular Mediacorp Channel 5 programme "The Incredible Tales", once.

My psychic ability has also allowed me to better understand a person's spiritual, mental, physical and emotional health, enabling me to help them heal more effectively through [Reiki](#) or [Crystal therapies](#).

Pairing my psychic ability with the two energy healing therapies can definitely enhance the healing process.

Should you have any problem you need advice or guidance for, [speak to me](#) and I can look into your situation.

We are all a part of the cosmos, and it is through this that you will be guided to handle the difficulties you face the best way possible.

Love and Light,
Gypsee Jenny

Reiki Healing Workshops with Master Jenny

Reiki in the modern era is fast becoming a preferred choice of healing therapy. This form of energy healing is a safe and non-invasive technique that can help with ailments in the physical, emotional and spiritual aspects of self.

To be able to use reiki, Master Jenny will align and attune your chakras to receive this ancient cosmic energy. The reiki teachings by Master Jenny are one-of-a-kind and complemented by her natural psychic abilities. Her reiki practice includes **strengthening of your qi, aura cleansing** and the **balancing of your chakras**. This would prime your body to be at an optimal state to receive the reiki attunement.

Other than the four main reiki symbols commonly-used by reiki practitioners, Master Jenny is also able to **attune more than 15 reiki symbols**. With the permission and blessings from the Divine, some select students would also be able to receive additional reiki attunements to enhance one's affinity to channel reiki for respective and specific purposes. Said reiki symbols for example can have a direct effect on alleviating depression, drawing in abundance, promoting a new business, aiding in personal relationships and more.

Reiki is not associated with any religion. It is a pure form of positive energy that has existed since the beginning of time and is now available for anyone to heal and develop oneself and others.
